

ALPHABETICAL LISTING

of

APO'S

Property of
Office of the Chief
Military Historian
General Reference Branch

JANUARY 1942 - NOVEMBER 1947

Prepared by

ARMY POSTAL SERVICE

AND STRENGTH ACCOUNTING BRANCHES, ACO

1. This is the second of a series of three publications dealing with World War II APOs. In this particular list, the cities or small islands at which APOs were located are arranged in alphabetical order without regard to country or other major geographical division and the APOs are listed in the order in which they commenced operation at such points. Appendices 1 and 2 show, respectively, those APOs for which the country or island of location is known but not the city, and those used by the various Army groups, Armies, Corps and Divisions.

2. The first APO list, which was distributed in July 1948, is a numerical listing of APOs with the geographical locations arranged chronologically. The third list, which will be published at some future date, will consist of a separate alphabetical listing for each country, island group, or similar geographical division.

3. An explanation of the various abbreviated postmaster addresses is given below:
